

Manufacturer Part Number: 10010065

Highlights

Zebra's direct thermal labels are available in paper or synthetic formats. Paper offers an inexpensive way to print in a variety of general-purpose applications, while synthetic offers more durable, long-lasting results with resistance to abrasion, moisture, and chemicals.

Direct thermal technology does not require a ribbon. Instead, a chemically coated heat-sensitive material produces images as heat is applied to the surface. Ideal for indoor applications where temperatures will not exceed high levels.

Abstract

A white polypropylene direct thermal label stock that produces high-contrast images with Zebra thermal printers. Provides excellent resistance to ultra violet light. Suggested applications include; jewelry tags and ring labels. With flaps.

Product Specifications Compare with other products

Product Name	6-pack 8000D Jwlrly Bttrfy Label with Flaps 2.2X0.5 In 3510/Roll
Product Type	Jewellery Label
Number of Labels per Roll	3510
Core Diameter	1"
Shape	Rectangle
Color	White
Print Technology	Direct Thermal
Media Size	2.20" Width x 0.50" Length
Material	Polypropylene
Adhesive Type	Permanent
